The Cypress Lakes Junior Development programs were designed to encompass everything a junior needs to realize their potential. Whether their goal is making the high school golf team or to become the next great tour player, we have the tools to put them on the right path and succeed. The pathway consists of four key components within the Cypress Lakes Junior Development Program which are progressive in their skill level, knowledge requirements and challenges, allowing juniors to continue developing and refining their game all year long.

Clinics

Access to bi-weekly clinics allows juniors the opportunity to learn all aspects of this amazing sport

Private Instruction

Personalized instruction not only produces better golf swings, it teaches juniors how to practice when not receiving instruction

Range Access

Unlimited range access gives juniors the chance to hone in on their skills

Tournaments

Regular Summer tournaments give juniors the opportunity to compete in a fun yet competitive environment, preparing them for tournament golf for years to come
